I think I understand that. We can talk sometime. You are welcome to call a little later at 202 316 0241. I am off next Tuesday and Wednesday, and on Thursday, I am hoping to view a Field Turf installation at George Mason U. I will be working on Friday at the # I just gave you, if you don't have time to talk today.

Jackie

Anything new with the Synthetic Turf Council or Field Turf? I asked the STC to submit a statement supporting the multi-agency effort on crumb rubber. I am surprised they did not want to submit supporting statement given the current state of things.

We are planning on talking to Darren and to Rom again, separately. We have already talked separately to RMA.

The problem is that the STC has been relegated to a minor part of the rubber/turf Coalition, which is being led by the recycled rubber industry that have much more financial resources to devote to the problem. Field Turf is part of that coalition. Darren Gill has been out of town for the past few weeks, so that may be why he didn't attend the meeting.

Al Carver wants to use me as a resource when they can pay me, but he runs everything through the Safe Fields Alliance for approval. It is a very messed up industry right now, struggling for some direction.
